

Safety Guidelines for Parent Partnering days:

- Familiarize yourself with all fire extinguishers, pull stations and the CCA emergency plan. (This is found in each classroom)
- Check playground and equipment for potential hazards.
- Children under the age of 8 should never be sent out of the classroom alone. Always pair children or have adult supervision.
- Avoid being in the room alone with children if a door with no windows is closed. (including bathrooms)
- Report injuries immediately to the teacher.
- Enforce all the CCA Code of Conduct Policies. (See handbook)
- Calm down all rowdy kids and make sure upstairs playground is clean with all balls in the pit.
- Make sure all outside doors are secured when walking by or coming back inside.
- If you are taking the children to the restrooms, please check and make sure all paper towels are picked up.

Please remember Parent Partnering remains an integral part of our school's success. All of your contributions are valuable to our teachers, staff and students. Please have a positive and flexible attitude at all times. May God bless the Parent Partner Program and all the families that serve from the goodness of their hearts.
